

Gradated Lines Worksheet

Use the gradation examples from the Gradated Line Information Sheet, and complete the calculations for the following warp thread count.

Example #1

$$N \times (N - 1) = W$$

1. 450 threads

2. 600 threads

3. 1000 threads

Example #2

$$N \times (2N - 4) = W$$

1. 450 threads

2. 600 threads

3. 1000 threads
